

MANAV SHARMA

+91 7668491601 | sharmamanav4363@gmail.com |

Summary

Aspiring Data Analyst with a strong foundation in data visualization, predictive modeling, and business intelligence. Built end-to-end analytics solutions — from an HR Attrition Dashboard in Power BI to a Customer Churn Prediction model deployed on Streamlit. Interned at Uniko where I worked across the full data pipeline — cleaning, analysis, and reporting. Looking to bring analytical thinking and a problem-solving mindset to a fast-moving startup team.

Experience

Data Science & Analytics Trainee Intern

Uniko | Jan 2026 – Apr 2026

- Completed training and internship in Data Science and Analytics.
- Worked with Python, SQL, Excel, and Power BI for data analysis and visualization.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA).
- Developed dashboards and reports to communicate key insights.

NSS Volunteer | National Service Scheme

2023 – Present

- Coordinated volunteer activities involving 50+ participants.
- Organized social awareness and environmental campaigns.
- Developed teamwork, communication, and leadership skills.

Active Member, Department of Art & Cultural Affairs

Chandigarh University | 2023 – Present

- Assisted in planning and organizing cultural events and college festivals.
- Collaborated with cross-functional teams to ensure smooth event execution.
- Developed teamwork, communication, and event management skills.

Projects

HR Analytics Dashboard | Power BI, Tableau, Excel, Power Query (May, 2026) ↻

- Developed interactive dashboards in Power BI, Tableau, and Excel to analyze employee attrition, workforce trends, and HR performance metrics.
- Utilized Power Query for data cleaning and transformation and DAX for KPI calculations, designing visualizations for attrition analysis, employee demographics, job satisfaction, and departmental performance to support data-driven HR decisions.

Insurance Risk and Claim Analysis Dashboard | Power BI, Excel, Power Query (April, 2026) ↻

- Designed a Power BI dashboard to analyze insurance claims data and uncover claim trends, risk patterns, and policy performance insights.
- Utilized Power Query for data preparation and DAX for KPI calculations, creating interactive visualizations for claim frequency, claim severity, customer demographics, and risk assessment to support data-driven decision-making.

Customer Churn Prediction | Python, XGBoost, Streamlit, Pandas, Scikit-learn (March, 2026) ↻

- Built a customer churn prediction application using XGBoost to identify customers at risk of leaving based on behavioral and transactional data.
- Performed data preprocessing and feature engineering using Pandas and Scikit-learn, achieving accurate churn predictions and improving model performance.
- Integrated SHAP for model explainability and deployed the solution using Streamlit, enabling interactive predictions and clear interpretation of key churn factors.

Education

Bachelors in Computer Science Engineering (AI & ML associated with IBM) | Chandigarh University, Mohali

- Session: 2023- 2027

Senior Secondary (CBSE) | Milton Public School, Agra

- Session: 2021-2022

Certifications

- Certified Data Analyst (Uniko).
- Data Science Foundations - Level 2 (V2) (IBM).
- Microsoft Azure Data Fundamentals(Microsoft).
- The Structured Query Language (Coursera).
- Learning Python from Beginner to Expert (LinkedIn).

Tools and Technologies

- | | | | |
|----------------|----------------|-------------------|-------------------|
| • SQL | • Tableau | • Power Query | • Numpy |
| • Python | • Pandas | • R & RStudio | • Matplotlib |
| • Google Colab | • Scikit-learn | • Microsoft Azure | • Git & GitHub |
| • Power BI | • DAX | • Generative AI | • Microsoft Excel |

Skills

- | | | |
|-----------------------|-----------------------------------|-------------------------|
| • Team Collaboration | • Exploratory Data Analysis (EDA) | • Predictive Modeling |
| • Communication | • KPI Development & Reporting | • Machine Learning |
| • Problem Solving | • Data Storytelling | • Business Intelligence |
| • Report Automation | • Dashboard Development | • Data Visualization |
| • Critical Thinking | • Data Interpretation | • Advanced Excel |
| • Conflict Resolution | • Statistical Analysis | • SQL Queries |
